

One Lansdowne Road

In July 2023 we submitted a planning application for One Lansdowne Road. Since then, we have been working closely with the council on our proposals and have now submitted some changes to the design.

CGI of the updated design proposals for One Lansdowne Road

Our updated proposals

Our proposals will still deliver 783 new, high-quality homes including affordable homes as well as a range of benefits for the local community. The changes submitted include:

Rethinking the new green public square at ground floor to make it **suitable for a range of community uses and events, improve safety and connect it with neighbouring spaces** both now and in the future

Changing the heights to **49 and 34 storeys** (previously 47 and 35) as well as the **design style of the buildings** to help better suit the surrounding context and create a striking landmark for Croydon

Delivering **co-working space** rather than flexible office space, to better cater for the needs of the local community

Making the ground floor of building B consistent with the style of building A, further **opening up the façade of the building along Lansdowne Road with commercial and community space and creating a more attractive street scene**
